

DRUG ALERT

DATE: October 11, 2024

DETAILS OF THE ALERT

We have become aware of an increase in potentially deadly substances circulating in the local unregulated supply. There has been an increase in suspected drug poisonings in local communities over the past week, including some local clustering in the Collingwood area.

Details on the substance involved is not available at this time, but it is believed to be a form of fentanyl and or fentanyl analogues.

WHAT CAN YOU DO?

- Carry and know how to use Naloxone.
- Use your drugs with a friend who can respond with Naloxone if needed.
- Use in a safe space with people you trust. You could be unconscious for a long time.
- If alone, call or text the National Overdose Response Line 1-888-688-6677 or have a friend check in on you.
- Start low and go slow!
- Use only one substance at a time.
- If someone you are with experiences an overdose call 911.

KNOW THE SIGNS OF A DRUG POISONING

- Person can't be woken up and breathing is slow or has stopped.
- Person is making snoring or gurgling sounds.
- Fingernails and lips have turned blue, purple or grey.
- Body is limp.
- Pupils are tiny or eyes are rolled back.
