

Questions About Your Child's Social and Emotional Development?

Infants, Toddlers, and Pre-Schoolers

Speak to your child's doctor, or staff member at their childcare or community program

OR

Contact HBHC to speak with a Public Health Nurse about your concerns and see if the program is right for your family

With your consent, they will contact HBHC for you

Once a part of the HBHC program, a Public Health Nurse will complete social/emotional developmental screen for your child and provide further support

We Can Help!

The Healthy Babies Healthy Children (HBHC) program offers FREE home visiting support to eligible families from pregnancy to the time children are ready for school. When you call HBHC, you will speak with a Public Health Nurse who can give you information and connect you to community resources.
